The A4/A3 multifunctional colour printer that adds value and versatility to your business

Using award winning technology, the MC800 Series of multifunction products adds value to any business. Robust and reliable, these products deliver the versatility of printing, copying, scanning and faxing* A4 and A3 double sided documents in rich high definition colour, ensuring you produce professional looking documents every time.

The MC800 Series offers impressive print speeds of up to 26ppm for colour and 34ppm for mono and enables you to print on a variety of media, to create a range of documents and business collateral in-house, reducing your outsourced print costs and improving efficiency.

These ergonomic devices are built using reliable, tried and tested digital LED printing technology and are packed full of features to increase productivity in your workplace. They are easy to use and include duplex printing, copying and scanning, high definition colour, fax*, scan to file, email or USB as well as enhanced control and security features - all as standard.

This affordable series of multifunction devices not only brings management of documents closer to the workgroup, they will also help your business to improve efficiency and reduce costs.

Whether you are a small to medium sized organisation or a remote workgroup, the MC800 Series will provide you with reliable, professional colour document management to suit your business needs with the added benefit of a three year warranty as standard.

MC851 – For budget conscious businesses

The MC851 is the perfect choice for companies on a limited budget without compromising on consistent high quality output and all the features and benefits that add value to your business.

- Affordable price tag
- Print speeds of up to 22ppm colour and 34ppm mono

MC861 - For organisations with a higher print volume requirement

For the more demanding workgroup or business with a higher print volume requirement, the MC861 is ideal. Your business will benefit from higher print speeds, consistent high quality output and a reduced total cost of ownership.

- Higher capacity toner cartridges
- Print speeds of up to 26ppm colour and 34ppm mono

Features that add value to your business

The MC800 Series includes a comprehensive range of easy to use functions and applications that not only help to improve the document management and output of your business but also workgroup productivity, resulting in improved cost efficiency and time saving benefits.

- Easy to use graphical LCD display with simple navigation of advanced features. Plus one-touch Copy, Scan, Print and Fax buttons for simplified interaction
- Scan to USB stick via Host USB port for convenient file sharing
- Scanning to client, email or network PC improves document communications and management
- Fax A4 and A3 single and double sided documents or to save paper send faxes directly from a PC
- Forward incoming faxes to an email account, saving paper and increasing document workflow efficiency
- Embedded LDAP provides direct access to contact and email data in an existing database, saving time and improving the reliability of document delivery
- Job Program allows users to save time by defining regularly used functions for repeated use

- Job Interrupt temporarily pauses the device, allowing users to copy urgent documents without disrupting the workflow
- Secure Print password protects print jobs so only authorised persons can retrieve them, whilst encryption takes care of data security as it travels across the network

Intuitive management and control tools

The MC800 Series includes a suite of in-the-box software utilities to support the range of features available, putting you in control, improving productivity and reducing support costs. These tools help you control user access rights as well as print usage.

- Colour Access Policy Manager (CAPM) software for controlling and monitoring user access rights
- PrintSuperVision for monitoring, reporting and managing networked printers in real-time
- Print Control allows you to control your print costs and usage
- TWAIN compliance enables integrated scanning within imaging software
- Nuance PaperPort converts hardcopy into digital content
- Nuance OmniPage converts documents into editable electronic files

Professional document quality every time

The MC800 Series allows you to create professional high definition prints, scans, copies and faxes* that are sharper and more colourful, creating a quality impression with every document you create. Add the ability to print to a wide range of media, from CD labels to banners, and the MC800 Series answers all your needs.

- Flexible media handling using up to 4 paper input trays; from A6 to 1200mm banners and card stock up to 200gsm
- Scanning/copying/faxing double sided documents is quick and simple using the 50-sheet RADF
- Duplex printing as standard
- ProQ2400 multi-level output quality, 1200 x 600dpi print resolution
- Colour Correct and Colour Swatch utilities enhance colour matching and quality to produce professional office documents
- OKI Template Manager makes it easy to create and print a range of useful documents, like business cards, labels and banners

Technology that you can rely upon

Using award winning OKI LED technology the MC800 Series is reliable, robust and easy-to-use.

- 3-year warranty protects your investment

Business Printing Specialists

OKI's printer division is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition our fax, POS and dot matrix printers complete our range of print solutions. These best in class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

CarbonZero Manufacturing Facilities

OKI's three main production facilities, located in Ayutthaya (Thailand), Shenzhen (China) and Fukushima (Japan), which manufacture printers and MFPs for the company's European and broader global markets have been made "CarbonZero" in a bid to slow down global climate change. This initiative is in accordance with our commitment to reduce total Greenhouse Gas Emissions, with an emissions reduction target of 6 per cent by 2012. This target is in line with the United Nations climate change objectives. We have invested in a range of carbon offsetting projects through co2 balance, to offset these factories' carbon emissions making them 'CarbonZero'.

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy-efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

Simply Unique - 3 Year On-Site Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests. We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years – for free! Simply register your product within 30 days of purchase to be eligible for our unique all inclusive offer. Fully covered by OKI! For further information please visit:
